

Revised Volunteer Discount Policy

Our Club relies on members to keep operating costs low by volunteering their time. There are many ways to volunteer: assist mechanics with maintenance; bringing refreshments to meetings; help Board members in their responsibilities; wash /wax aircraft, etc.

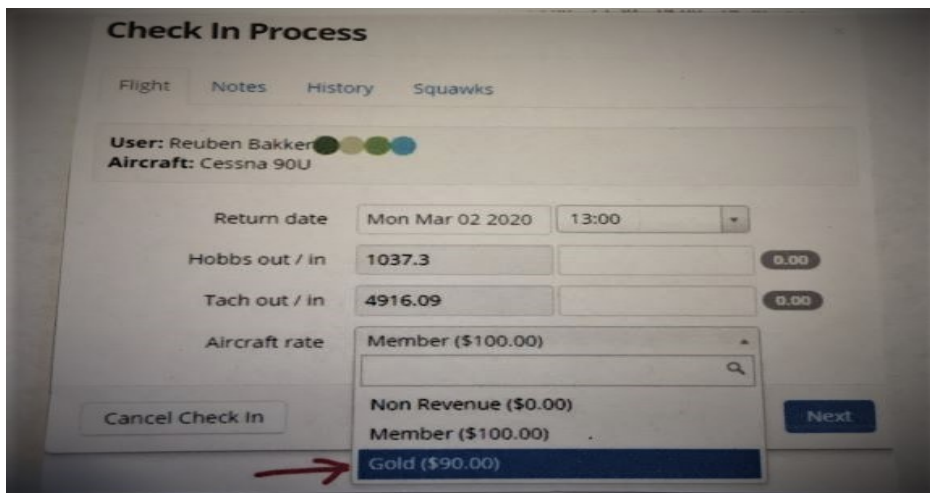

Effective March 1, 2021, the Board of Directors revised the policy so that members can receive a \$10 discount on aircraft use rates immediately upon accumulating 6 hrs of service.

Terms:

1. You are now eligible for the discount starting immediately on the date that your service has accumulated to 6 hrs. *and was logged* into the volunteer system.
2. Credit will continue for 3 additional calendar months.
3. The discount is not retroactive to any flights conducted before the date that you *logged* the required 6 hrs.

Example: Member Smith provides 3 hrs services on Jan. 15th and then another 3 hrs on Feb. 15th- his total is now 6 hrs. So he becomes *immediately* eligible on Feb 15 for the discount. His discount covers the remainder of the month (Feb 15-28) along with Mar-Apr-May (3 additional calendar months). If he volunteers another 6 hrs in April then his discount continues through July and so on.

Notes : - You may volunteer for someone else by submitting your hours under their name.
 - Upon "checking-In" your flight on Flight Circle (see below), make sure the "GOLD" rate is available and selected in the drop down menu. Notify the Club Secretary at (419) 277-9968 if you do not see the "GOLD" selection.
